

PROJECTPROFILE

Installed Product :
MES100 Moisture Vapor Control System

Site Conditions :

Round Table Pizza encountered flooring failures in several stores on their existing dining room floors. They needed a solution which was not only cost effective, but also needed to be installed quickly with minimal downtime.

Floor Seal Technology, Inc. developed Round Table's new flooring - a fast track installation that minimizes downtime for the restaurant and included the installation of the MES100™ Moisture Vapor Control System.

All of this installed within one weekend!
