Subject: Floorseal Performance

Bill,

I wanted to thank you for the level of performance that Floorseal Technologies has provided at the Kaiser Anaheim project. I spoke with our superintendent and he is very pleased with the manpower that has been provided, your crew's professionalism in the application of your product and in the orderly condition that Floorseal leaves the area once their work is complete. I hope we get the chance to use your product again in the future.

Thank you.

Damian Buessing
